3.76 lbs / 1.71 kg

DIMENSIONS

3 5/8" D x 2 1/4" H x 7 7/8" L in
92.1D x 57.2H x 193.7L mm

WHY SATURN?

Saturn Materials, LLC is a green company by the nature of our process, which only expels water vapor. Low energy consumption and the utilization of fly ash, a by-product of coal fire power plants and cement, makes our products ecologically friendly. We acquire raw materials like sand and fly ash, then transform these materials into masonry products based on customer's demand for shape, texture, and color. Saturn Materials, LLC will tailor to the needs of our clients. We are flexible to requests and only certain shapes will be inventoried.
